

**Next level
security for
confident
learning
environments.**

Seriously protective.

For companies serious about protecting their team, space, and assets, the G Series control panel goes beyond sounding an alarm to next-level security you can feel—day and night. It's your business partner in protection, designed to seamlessly connect and integrate every component of your alarm system with round-the-clock monitoring, instant alerts, and control in the palm of your hand.

From the moment you open your doors to the last person leaving and every hour overnight, the G Series is seriously protective. For safety beyond intrusion, trust beyond compare.

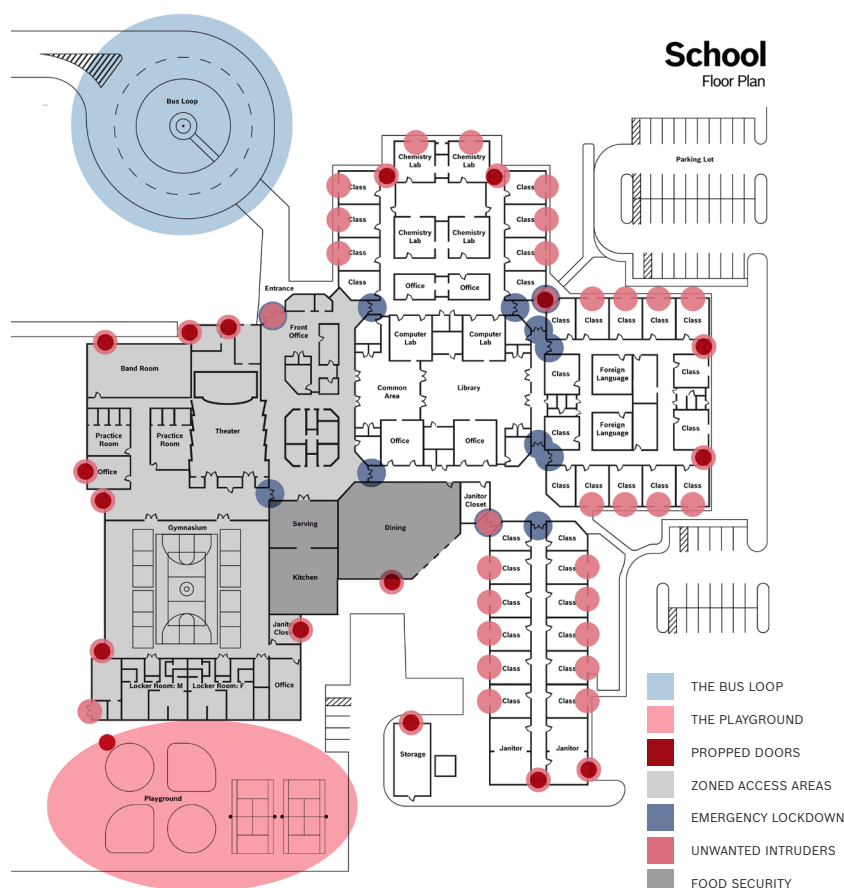

SAFETY FIRST

Secure all areas and access points.

For educational institutions, the G Series offers both protection and freedom, safeguarding against the unknown while providing seamless access for students and staff from the first bell to after-school programs and beyond.

It's imperative that everyone feels confident that they are safe at all times.

Our G Series ensures that confidence — day and night, 24/7 — inside the classroom and out — is always one step ahead.

SCENARIOS

How our intrusion systems, cameras, control panels, and alarms fill gaps in security.

THE BUS LOOP

Our intrusion systems combined with our cameras can be programmed to detect if the bus loop is blocked.

PROPPED DOORS

The control panel can be programmed to tell when the door has been open too long, keeping the perimeter secure.

THE PLAYGROUND

Our intrusion systems combined with our cameras can be programmed to detect if a person is on-campus where they aren't allowed.

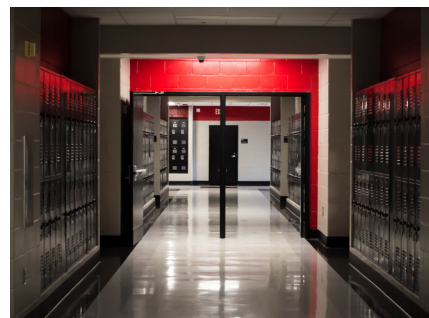

EMERGENCY LOCKDOWN

One emergency. Dozens of ways to stay safe. Portable or mounted panic buttons can signal a call for help and trigger all the doors to lock.

ZONED ACCESS AREAS

Our system offers control and flexibility for individual or block areas of the building to be locked or unlocked depending on the event.

UNWANTED INTRUDERS

Our alarm system will detect an intrusion immediately, producing notifications alerting key personnel of the breach.

FOOD SECURITY

Our system keeps tabs on all essential appliances and equipment in food service areas.
